The final presentation of the project took place at the Nicosia Türk Maarif College and included all 6th year form teachers.

Academic consultant to the Social Studies Program Commission and EMU Education Faculty, Elementary Education

Department academic staff member Assoc. Prof. Dr. Süheyla Üçışık Erbil answered audience questions after introducing the program details to the attendees.

The philosophy of the newly reformed program was indicated by Assoc. Dr. Erbil as follows:

"The Educational Program of Social Studies was arranged for students to understand how people managed to live together as individuals and in groups from past to present, and how they interacted with their physical and social environments. In addition to this, the program allows its students to reach accurate information and approach social events with an investigative understanding. The program contrib-

utes to the student's ability and creativity when problem solving by making them wisely question information. Our aim is to let the students of TRNC perceive the society they are living in as an entirety, by looking at its history, geography, economy, culture, art, administration and social groups; to value and protect the nature and people of the country and to actively participate in the society".

Assoc. Prof. Dr. Erbil, described the newly formed program's aim as a providing a contribution to raise confident, free and autonomous individuals who participate in their social and physical environment based on knowledge in order to gain intellectual, social and affective maturity.
