

HIGHER EDUCATION QUALITY BOARD VICE CHAIR VISITS EMU

The Higher Education Quality Board Vice Chair Prof. Dr. Sibel Aksu Yıldırım paid a visit to Eastern Mediterranean University and participated in various activities. Prof. Dr. Yıldırım, who

came to the Turkish Republic of Northern Cyprus upon the invitation of EMU, paid a visit of courtesy to EMU Rector Prof. Dr. Necdet Osam. Vice Rectors of EMU participated in the said visit

which took place at 10:00 a.m. on 15 March 2019. Following the visit, Prof. Dr. Yıldırım delivered a presentation to EMU Senate regarding the work undertaken by the Higher Education Quality

Board concerning the higher education institutions in Turkey, the latest developments in the world pertaining to higher education and future projections.

Cont. p. 2 >>

Prof. Dr. Yıldırım Delivered a Presentation in Career Days

In scope of the 7th International Career Days hosted by the Eastern Mediterranean University Alumni Communications and Career Research Directorate, Higher Education Quality Board Vice Chair and Hacettepe University Physiotherapy and Rehabilitation Faculty academic staff member Prof. Dr. Sibel Aksu Yıldırım attended an event organised by EMU Health Sciences Faculty. In this respect, Prof. Dr. Sibel Aksu Yıldırım came together with the students of the aforesaid Faculty at EMU Health Sciences Faculty Amphitheatre at 3:00 p.m. on Thursday, 14 March 2019. During the event, Prof. Dr. Yıldırım delivered a presentation titled “Bracing for the Future: 21st Century Skills”. EMU Health Sciences Faculty Dean Prof. Dr. Mehtap Malkoç also attended the conference which was received with great interest.

EMU CONGRATULATES AWARD WINNING STUDENTS

Eastern Mediterranean University (EMU) Rector Prof. Dr. Necdet Osam received Burak Bilgen and Ali İşlek, undergraduate students of EMU School of Business and Finance, Department of International Trade and Business, and Hasan Kumbur, undergraduate student of Computer Technology and Information Systems, in his office. The

aforesaid students won an award for a project they participated in.

During the visit which took place at 12:00 p.m. on 11 March 2019, Rector Prof. Dr. Osam received information about the project prepared by EMU students Burak Bilgen, Ali İşlek and Hasan Kumbur and Cyprus

Social Sciences University Law Faculty student Halilcan Okutan. Extending his congratulations and appreciation to students for their achieved success and the creative project they developed, Prof. Dr. Osam wished them all the further success. Prof. Dr. Osam also assured the aforesaid students that he will provide every support for the realisation of the project.

Earned the Second Prize

In the “TRNC Inter-University Entrepreneurship and Innovative Idea Competition” organised for the first time in the TRNC through the contributions of the Cyprus Social Sciences University Project and Development Center (KİSBÜ-PARGEM), Turkey’s Nicosia Embassy Development and Economic Cooperation Office and the Turkish Republic of Northern Cyprus (TRNC) Ministry of Education, the aforesaid students of EMU have been awarded the second prize with “Intelligent Automation Project: Diğren”. The students received their awards at a ceremony held at the Social Sciences University of Cyprus.

FAMOUS CARTOONIST TAN ORAL IN EMU FOR A CONFERENCE

Within the scope of the 7th International Career Week organised by Eastern Mediterranean University (EMU) Alumni and Career Research Office (MİKA), famous cartoonist Tan Oral visited Turkish Republic of Northern Cyprus (TRNC) and held a conference for EMU students at EMU Faculty of Architecture Exhibition Hall with the collaboration of EMU Faculty of Architecture. Vice Rector Prof. Dr. Naciye Doratlı, Faculty of Architecture Dean Prof. Dr. Özgür Dinçyürek, Architecture Faculty academic staff members and students, Visual Arts and Visual Communication Design Department Head Prof. Dr. Senih Çavuşoğlu and academic staff members, Artist Dr. Arif Albayrak and a large number of students attended the event. Following the informative session on Tan

Oral's career journey, the students visited an exhibition featuring Oral's work. The exhibition will be open for visitors until the 22nd of March, Friday.

A Visit to Rector Prof. Dr. Osam

EMU Rector Prof. Dr. Necdet Osam hosted Tan Oral in his office prior to conference. During the visit, Vice Rector for Student Affairs Prof. Dr. Sonuç Zorlu Oğurlu, Faculty of Architecture Dean Prof. Dr. Özgür Dinçyürek and Vice Dean Assoc. Prof. Dr. Banu Tevfikler were present. Prof. Dr. Necdet Osam expressed the university's honor and pride to be hosting an important artist like Tan Oral in TRNC. Prof. Dr. Osam also stated that the cartoons of Oral act as a torchlight for the future generations. Thanking Prof. Dr. Necdet

Osam for EMU's hospitality, Tan Oral shared his excitement on the exhibition. Oral presented his cartoon book to Prof. Dr. Necdet Osam and the Rector Prof. Dr. Osam presented him a traditional Cypriot Lefkara frame.

EMU STUDENT ADEM ÇAVUŞOĞLU BREAKS A RECORD IN TRNC

record of Hamis Çakır. With a former achievement of 57.17 meters, Çavuşoğlu also holds the TRNC record in the young athletes category. Following Çavuşoğlu's recent achievement, EMU Health Sciences Faculty Dean Prof. Dr. Mehtap Malkoç, vice deans and Sports Sciences Department academic staff members congratulated him and presented him a plaque of appreciation.

Rector of EMU Congratulates Çavuşoğlu

Eastern Mediterranean University Rector Prof. Dr. Necdet Osam received EMU student Adem Çavuşoğlu in his office at 4:00 p.m. on 12 March 2019. During the said visit, Dean of EMU Health Sciences Faculty Prof. Dr. Mehtap Malkoç and Physiotherapy and Rehabilitation Department Academic Staff Member Sports Sciences Programme Coordinator Assist. Prof. Dr. Berkiye Kırmızıgöl were also present. Extending his congratulations to Çavuşoğlu, EMU Rector Prof. Dr. Necdet Osam wished him all the further success. Prof. Dr. Osam also stated that EMU will continue to support successful sports players.

With a javelin throw of 60.83 meters, Eastern Mediterranean University Health Sciences Faculty, Sports Sciences Department 3rd year student Adem Çavuşoğlu broke a record in adults category in the Turkish Republic of Northern Cyprus and earned the third place in Turkey.

Competing in the 18th Seyfi Alanya Atmalar Cup organised by Mersin Athletics Federation of Turkey in Nevin Yanit Athletics Complex in Mersin, EMU student Çavuşoğlu managed to break the former

EMU FACULTY OF ARTS AND SCIENCES IS AMONG THE BESTS WORLDWIDE

Eastern Mediterranean University (EMU) Faculty of Arts and Sciences, which has the only Physics and Chemistry Departments within the Turkish Republic of Northern Cyprus (TRNC) and one of the two Mathematics Departments in the country, has once again proven its quality by becoming one of the world's bests.

In addition to its leading position in the TRNC, with its strong and prominent academic staff members, the Faculty has been ranked within the 501-600 band in the UK based higher education ranking board Times Higher Education's (THE) 2019 World University Rankings in the "Physical Sciences" category through the contributions of the Physics, Mathematics and Chemistry Departments operating under the said faculty. With the aforesaid ranking, EMU Faculty of Arts and Sciences is now 5th amongst the universities of Turkey.

Dean of EMU Faculty of Arts and Sciences Prof. Dr. Mehmet Ali Özarslan emphasized that the faculty's recent success in THE rankings, together with the successful achievements in the Nature Index rankings

in the last 3 years, is the most important indicator of the quality of the education offered at the high standards in the Faculty, and emphasized that the faculty will maintain its outstanding success.

Over 4000 Graduates

EMU Faculty of Arts and Sciences is one of the three faculties established in 1986 when the Institute of High Technology was converted into a state university under the name of Eastern Mediterranean University. Students who have graduated from the faculty, which boasts an elite group of alumni reaching 4000 in number, continue their academic studies and careers successfully in a wide geography ranging from America to Australia, from Europe to Asia and to Africa. The Physics and Chemistry Departments, which were founded in 1989, have two important tasks in EMU and cater for the demands in these areas. The Physics and Chemistry departments also offer the students master's programs with thesis requirements and doctoral degree programs. On the other hand, Mathematics Department, which has the only English-medium Actuarial

Science Program both within Turkey and the TRNC, also offers study opportunities in different areas including Mathematics and Computer Science undergraduate program, Information Systems non-thesis master's program, Applied Mathematics and Computer Science master's program with thesis requirements, Mathematics PhD. program and Applied Mathematics and Computer Science PhD. program.

EMU GRADUATE GİZEM TAŞTEMEL DİNÇKAN TALKED ABOUT HER CAREER IN EMU

7th Career Days organised by the Eastern Mediterranean University Rector's Office, Academic Units and Alumni Communication and Career Research Directorate (MİKA) continue with various activities in EMU. In this regard, EMU graduate Gizem Taştemel Dinçkan, who came to the Turkish Republic of Northern Cyprus upon the invitation of Business and Economics Faculty and Communication Faculty, delivered a talk for EMU students at Prof. Dr. Mehmet Tahiroğlu Hall. Alongside with Faculty members, Dean of Business and Economics Faculty Prof. Dr. Selcan Timur and Chair of Business Department Assoc. Prof. Dr. Şule Aker also attended the said event. Having graduated from EMU English-medium Business Department in 2013, Dinçkan, delivered a presentation titled "21st Century's Economic Crime: Employee Abuses".

During her presentation, Dinçkan also provided information to the participants regarding her current 'Senior Consultant' position at Cerebra CPAs&Advisors firm. Sharing information on her career experiences after her graduation, Dinçkan highlighted the importance of internship practice at the career path.

Information on Abuse Analysis

Stating that she started to work in Cerebra in 2014 as an assistant, Dinçkan added that she was promoted to the position of 'Senior Consultant' in 2017. Dinçkan also stated that within her 5 years of experience, she participated in projects focusing on internal control, internal audit, forensic accounting, fraud inspection and independent audit. Dinçkan pointed out that the world's leading international corporations are among their main customers. Dinçkan also

provided information to EMU students about corruption, conflict of interest, abuse of assets, and the investigation of fraudulent financial statements.

EMU GRADUATE AND QATAR AIRWAYS DIRECTOR ZİYA EDİZ GÜRSAN DELIVERED A CONFERENCE IN EMU

Ziya Ediz Gürsan, Eastern Mediterranean University, Faculty of Engineering, Department of Industrial Engineering graduate and Pricing Manager of Qatar Airways at the said airline's headquarters in Doha, delivered a conference titled "Latest Developments in Aviation" for the students of the Eastern Mediterranean University. The conference of Gürsan, who visited our university within the scope of the 7th Career Days organised by EMU Alumni Communication and Career Research Directorate (MİKA), attracted great interest among the student participants. Ziya Ediz Gürsan stated that he did not only receive a high quality education in the English during his time at EMU, he also

got the opportunity to familiarise himself with foreign cultures. Gürsan thanked EMU and his department for providing its students with such an opportunity.

According to the information from Assoc. Prof. Dr. Gökhan İzbirak, EMU Department of Industrial Engineering Chair, unlike people's assumptions, Industrial Engineers and Business Engineers are not stationed in factories producing all kinds of products, but are also in the service sector (consultancy, transportation, energy, logistics, finance, banking, hospitals, branding, software, tourism, education, telecommunication, marketing, human resources etc.), construction and extraction (extraction of petroleum, natural gas, mine etc.) firms and they contribute by helping the firms produce more and high quality products/services with lower costs.

Eastern Mediterranean University's ABET accredited (an accreditation only 5 universities have in Turkey) (abet.org) Department of Industrial Engineering enables its successful students to get Mechanical Engineering or Business Administration diplomas through its double major program. Since 1998, the year when Industrial Engineering and Business Engineering programs produced their first graduates, graduates of the aforesaid programs have been positioned

at managerial positions at national and international firms active in production, service, construction and extraction sectors. These graduates are admitted into post-graduate programs at world-famous universities such as MIT and Cambridge, are able to graduate from those programs with honours and continue their careers as academicians.

Who is Ziya Ediz Gürsan?

Ziya Ediz Gürsan graduated from Eastern Mediterranean University, Industrial Engineering Department in 2006 and after his military service, started his career in 2007 at the Revenue Management Department at SunExpress Airlines, an associated company by German Lufthansa and Turkish Airlines. Receiving a promotion every year, Gürsan became the Revenue Management Manager of SunExpress airlines in 4 short years and continued in this position for another 3. In 2014, he transferred to AtlasGlobal Airlines and was stationed in Tbilisi as the Country Manager of Georgia. After a successful work period of 2 years, Ziya Ediz Gürsan was appointed as the Pricing Manager at AtlasGlobal's Headquarters in İstanbul. Welcoming a proposal in October, he assumed his new role as the new Pricing Manager for Qatar's national airline company, Qatar Airways, stationed in the capital, Doha.

PROF. DR. ÇOLAKOĞLU MEETS THE STUDENTS OF EMU

Within the scope of the 7th Career Week organised by the Eastern Mediterranean University Alumni Communication and Career Research Center (MİKA), Ege University Sports Sciences Faculty, Sports and Health Department Chair Prof. Dr. Bekir Muzaffer Çolakoğlu came together with EMU students at EMU Faculty of Health Sciences Amphitheatre at 2:00 p.m. on Friday, 8 March 2019. The event was also participated by faculty members of EMU Health Sciences Faculty.

During the said event, Prof. Dr. Çolakoğlu delivered a presentation titled “Current Topics in Athletic Performance Physiology”. Following his presentation, Prof. Dr. Çolakoğlu also provided information to students on how he reached his present position in his career. The presentation ended with Prof. Dr. Çolakoğlu’s recommendations to the students of EMU Health Sciences Faculty, Sports Sciences Department.

EMRE YÜCELEN GIVES A WORKSHOP IN EMU

Eastern Mediterranean University (EMU), Education Faculty, Fine Arts Education Department, Music Teaching Program hosted Emre Yücelen, one of the important vocal coaches of Turkey. During his stay in EMU, Emre Yücelen offered a workshop for EMU students.

During the workshop, Emre Yücelen carried out sound analysis for some students and also talked about his experiences. He also responded to students’ questions on vocal training and stage performance.

EMU COMPLETES WORKSHOPS ORGANISED FOR HIGH SCHOOL STUDENTS

Workshops offered by Eastern Mediterranean University for high school final year students of the Turkish Republic of Northern Cyprus have been completed. Having hosted over 1200 high school students from different schools in the TRNC, the workshops commenced on

the 25th of February 2019 and were held between 09:30 a.m. and 1:00 p.m. at various academic units of the Eastern Mediterranean University. The workshops were also held for students from different areas of the TRNC on the 26th of February, 4th and 5th of March and 11th of March. The

workshops came to an end on 11 March 2019 with the participation of students of high schools from Nicosia district, namely Bülent Ecevit Anatolia High School, Nicosia Turkish High School, Anatolia High School of Fine Arts, Turkish Maarif College, 20 Temmuz High School of

Science, Atatürk Vocational High School, Sedat Simavi Vocational High School of Industry, Levent College, Ted College and Değirmenlik High School. Students were grouped according to their prospective career choices and attended workshops along with expert faculty members.

Students' Comments

**Alican Vural Dikilitaş –
Nicosia Turkish High School
Final Year Student**

When I graduate from high school, my primary target is to study Interior Architecture. Today, we had a chance to explore EMU campus. It is really beautiful and vibrant. EMU will most probably be my first choice.

**Fatma Arslan – Nicosia
Turkish High School Final
Year Student**

When I graduate, I am thinking of studying Computer Engineering or Architecture. My priority universities are the ones in Turkey but if I can't succeed, I will choose EMU. I really liked EMU's campus.

**Jemal Novruzova – Nicosia
Turkish High School Final
Year Student**

EMU is very beautiful and big. I attended a workshop titled "Small Project Application with 3D Autocad". I found the workshop quite useful. I may prefer EMU when I graduate. Why not? EMU is among my choices.

**Tutku Gürsun – Bülent Ecevit
Anatolia High School Final
Year Student**

I would like to study Graphic Design. The workshops were really useful. The campus is beautiful. I learnt a lot about the university during my visit. When I graduate, EMU will be my first priority.

EMU DR. FAZIL KÜÇÜK MEDICINE FACULTY CELEBRATES 14TH MARCH MEDICINE DAY

Eastern Mediterranean University (EMU) Dr. Fazıl Küçük Medicine Faculty organised a series of events within the scope of 14 March Medicine Day. Eastern Mediterranean University's young doctor candidates, accompanied by academicians, laid a wreath on Atatürk statue at EMU Atatürk Square at 8:30 a.m. on Thursday, 14 March 2019. The ceremony commenced with a moment of silence and the national anthem. Addressing the

students in participation, EMU Dr. Fazıl Küçük Medicine Faculty academic staff member Assist. Prof. Dr. Bülent Sezgin talked about the importance of 14 March Medicine Day.

Stating that the establishment of the first medicine faculty founded with western ideology was on 14 March 1827, Assist. Prof. Dr. Sezgin added that, "In 1919 when İstanbul was under attack, medicine

students organised a meeting to protest the occupation forces. They told the commander of the occupation forces that the meeting was going to be organised to celebrate the first anniversary of the foundation of their faculty as 14 March Medicine Day. This tradition was observed to date. Throughout the world, there is no concept of 'Medicine Day'. It is only special to our country". Assist. Prof. Dr. Sezgin added that the Medicine Day is highly important in bringing the health problems of the country on the agenda and acting as a platform for the solutions offered by our doctors against these problems. 14 March Medicine Day is also vital in highlighting the issues and problems pertaining to the personal rights of the health personnel.

100 Trees in 100 Years

After the ceremony, students and academicians of EMU Dr. Fazıl Küçük Medicine Faculty went to the area where tree planting would take place. Students planted 100 trees, symbolising the 100th anniversary of the Medicine Day, in the area allocated to the faculty as Dr. Fazıl Küçük Medicine Faculty Grove.

EMU DR. FAZIL KÜÇÜK MEDICINE FACULTY CELEBRATES 14TH OF MARCH – MEDICINE DAY

Eastern Mediterranean University (EMU) Dr. Fazıl Küçük Medicine Faculty Dean Prof. Dr. Nahide Gökçora released a statement on the occasion of the 14th of March, Medicine Day, which reads as follows:

“14th of March is of vital importance for the health sector. Medicine Day is observed annually on the 14th of March to denote the struggles experienced by the healthcare professionals and also to emphasize their contributions to science and community. 14th of March 1827 is regarded as the beginning of the modern medicine education in Turkey. The first ever celebrated Medicine Day in Turkey was in 1919 by the medical students opposing the forces occupying Turkey at the end of World War I. This year, the Medicine Day is to be celebrated for the 100th time is an indicator of fight against captivity. It is a day of respect for healthcare professionals who try their best today to save the lives

of people whatever the conditions are. The celebrations in other countries are held on significant dates regarding medicine.

Working in healthcare is not a profession it is a lifestyle. Enjoying life, respecting the ones that are different and, working selflessly with a discipline for a lifetime are essential features of such a lifestyle.

We do not only provide medical training for our students who come from 17 different nations but also provide opportunities for them to share their own cultures with fellow students as well as helping them acquire important skills such as tolerance, empathy, communication skills, stress management, future planning and support. EMU Faculty of Medicine educates its students by prioritising the modern and most recent methodologies applied in the field of Medical Education. Last year for the first graduates of our faculty, we planted an olive tree for each graduating student. This

year, we are planting trees in our faculty within the scope of the Medicine Day.

Our university's joint project with the TRNC Ministry of Health, launched with the support of Turkey's Nicosia Embassy Aid Committee as well as Department of Cancer in Turkey, has been successfully carried out. Within this framework, the draft act regarding “Mandatory Cancer Declaration” has been presented to be discussed in the Council and, the Cancer Monitoring, Guidance and Education Center (KİDEM) and National Cancer Council (UKDK) have been formed. Moreover, this year, we have organized various extensive courses in order to raise awareness on the matter. Therefore, we are planning to announce the very first data on cancer registries on Cancer Week, 1-7 April.

Today, the local and global magnitude of healthcare services has increased the numbers and characteristics of the qualifications expected from medicine faculty graduates. As a result of the annual increase in the effects of globalization, Medicine Faculties are obliged to raise healthcare professionals that are able to find solutions for local and national health problems of the society. EMU Medicine Faculty that acts within this framework of awareness and responsibilities has 14 different competencies (ranging from evidence based medicine practices to group work as well as humanitarian values) offering its students a rich and broad education program. The competencies expected from a Medicine Faculty graduate includes being confident, able to develop empathy, humane, honest, respectful, careful, professional, an advocate for health, a team member, an advisor, an administrator and leader, a scientist and lastly, a communicator. Vigorous efforts are made in order to provide both local and international opportunities for students to improve themselves. We should never forget that life is a gift for humans and we, humans, shall honour and prosper. I extend my best wishes to all on the occasion of 14 March Medicine Day.”

SELDA BAĞCAN WILL PERFORM AT “EMU WITH FOLK SONGS” ON FRIDAY

Organised annually by Eastern Mediterranean University (EMU) Social and Cultural Activities Directorate, “EMU with Folk Songs” activity is taking place for the 8th time this year. During the said organisation students of EMU Education Faculty. Music Teacher Education Program, EMU Music Club Group Mavra and Selda Bağcan, a living legend in world music, will be giving concerts. The event which will take place at EMU Lala Mustafa Paşa Sports Center between 7:30 p.m. and 10:30 p.m. on Friday, 15 March 2019 will be free of charge. In a statement released by EMU Social and Cultural Activities Directorate, all members of the public are invited to this magnificent organisation.

Selda Bağcan Will Exhilarate

World-famous Turkish folk music Selda Bağcan will meet music lovers at EMU with Folk Songs 8 event and sing her popular songs. Her reputation being beyond the borders of Turkey, Selda Bağcan earned her place at the “Legendary and Historic

Living Women Singers in World Music” list of Times Magazine. In 1990s, Selda Bağcan earned great success with her “Ziller ve İpler” album in 1992. During the same year, her songs were selected for the movie “Kurşun Adres Sormaz”. Selda Bağcan’s “İnce İnce Bir Kar Yağar” song in “Türkola” album, which was composed by Aşık Mahzuni Şerif, was used at Electronic Arts game “Skate 2” with Mos Def adaptation. His real name being Dante Terrell Smith-Bey, the American actor and singer used the aforesaid Turkish folk song in his album and this led Selda Bağcan’s name to be discussed at album critics and appear in various music magazines.

2010 Grammy Awards nominee for the best rap album and best performance, the hip-hop artist from Brooklyn, Mos Def, used “İnce İnce Bir Kar Yağar” Turkish folk song at his song “Supermagic” which was released in his latest album “The Ecstasies”.
