

A PRESS CONFERENCE HAS BEEN ORGANISED FOR THE “EASTERN MEDITERRANEAN TOURISM CAREER FAIR 2022” TOURISM SECTOR TO MEET IN EMU

A joint press conference has been organised to share details about the “Eastern Mediterranean Tourism Career Fair 2022” to be held at EMU Lala Mustafa Paşa Sports Center with the joint collaboration of the Eastern Mediterranean University (EMU) Tourism Faculty, the Turkish Republic of Northern Cyprus (TRNC) Deputy Prime Ministry, Ministry of Tourism, Culture, Youth and Environment on Thursday, 14 April, 2022, between 10:00 and 16:30. The said press conference was held on Friday, 8 April, 2022, at 10:00, at the TRNC Deputy Prime Ministry, Ministry of Tourism, Culture, Youth and Environment.

“Demand for Qualified Workforce To Be Catered For”

Delivering the opening speech of the press conference, TRNC Deputy Prime Ministry, Ministry of Tourism, Culture, Youth and Environment Undersecretary Serhan Aktunç stated that they are organising a career fair together with EMU to support the tourism sector, which has great importance in terms of closing the current account deficit of the TRNC. Stating that the tourism sector was closing 63% of the country’s current account deficit with a net tourism income of 960 million dollars before the pandemic, Aktunç stated that the importance of tourism in the pandemic period was once again revealed. Drawing attention to the fact that nearly 30 thousand personnel in the sector returned back to their countries during the pandemic process, Aktunç stated that they have observed a shortage of qualified workforce in the present period when

the tourism sector is slowly starting to revive and that they are planning to organize this career fair with EMU towards this direction. Expressing that they will also realise such activities with other universities, Aktunç pointed out that if the country successfully facilitates the local sector by owning and internalizing it, the revenues of the TRNC will increase even further. Aktunç emphasized that while such events carry special importance for both stakeholders to find qualified personnel and to keep the income obtained from tourism in the country by employing local personnel, they are hoping to catch the momentum they hoped to obtain in 2019.

“Career Possibilities to Be Presented”

Speaking at the meeting, EMU Vice Rector for Social and Cultural Affairs Prof. Dr. Deniz İşçioglu stated that the Eastern Mediterranean Tourism Career Fair 22, to be held with the slogan “Tourism is Reviving Once Again!”, will open different horizons for young people in the field of tourism. Expressing that nearly 100 national and international hotels, restaurants, cafes, travel agencies, tour operators and managers of airline companies will attend the event, Prof. Dr. İşçioglu invited all those who plan to shape their careers with tourism to the event. Emphasizing that the visitors will have opportunities such as face-to-face meetings with the leading tourism enterprises of the TRNC as well as internship and career planning opportunities, Prof. Dr. İşçioglu extended her gratitude and appreciation

to EMU Tourism Faculty Dean Prof. Dr. Hasan Kılıç and his team, the stakeholders of the fair, namely, the Cyprus Turkish Hoteliers Association, Cyprus Turkish Tourism and Travel Agencies Association, Northern Cyprus Turkish Restaurateurs Association and Cyprus Turkish Travel Guides Association as well as the sponsors of the fair Narin Enterprises, Kaner Group, Oza Coffee, Hediyeem Su, Petek Patisseries, Mardo and Ekor. Prof. Dr. İşçioglu also extended her special thanks to Fikri Ataoğlu, TRNC Deputy Prime Ministry, Minister of Tourism, Culture and Environment, and Undersecretary Aktunç for their contributions. Prof. Dr. İşçioglu also expressed her hope that the event would yield positive outcomes for tourism in the TRNC.

“Around 100 Companies Will Participate in the Fair”

In his speech, EMU Tourism Faculty Dean Prof. Dr. Hasan Kılıç pointed out the importance of fulfilling the need in the sector by training qualified personnel. Stating that the withdrawal of 30 thousand personnel from the sector has put the sector in great trouble, Prof. Dr. Kılıç pointed out that their duty is to meet the demand of the sector. Expressing that around 100 companies and 200 representatives will join the fair, Prof. Dr. Kılıç stated that their goal is to provide this opportunity both to students and members of public who are seeking a career in the field of tourism. Prof. Dr. Kılıç conveyed his thanks to all the stakeholders and sponsors of the fair.

COLLABORATION PROTOCOL BETWEEN EMU AND GIKAD

Executive Board members of GIKAD were present during the signing session.

“Our Women Are Successful When They Get Equality in Opportunity”

Delivering the opening speech of the ceremony, EMU Rector Prof. Dr. Aykut Hocanın stated that EMU’s only duty is not only education and research but also to serve the community. Pointing out that entrepreneurship is an area that they attach particular importance to in terms of the emergence of new initiatives related to the solution of problems and the success of female and male entrepreneurs at the international level, Rector Prof. Dr. Hocanın said: “Having GIKAD collaborating with our university holds great importance for us. As a state university, it is our responsibility to support entrepreneurship and direct female students to fields related to this initiative. Nearly half of our executives at EMU are women and they take office by election. This means that our women are naturally successful when equal opportunities are provided. I hope we will get fruitful outcomes as a result of this cooperation”.

“We have a Long Way to Go, a lot of Women to Support”

Stating that they are proud for signing such an agreement with EMU, GIKAD Director İçim Çağınır Kavuklu also delivered speech and said; “EMU is such an important value for our country. We are always proud to have such an institution in Cyprus. Even though it has been only a year since we have launched our association, we set up a communication network with our members consisting of inspiring women who have reached a certain level in professional fields, social responsibility projects, art and science from nearly 150 different professional fields. Our ultimate goal is to have women in the entrepreneurship ecosystem. As a matter of fact, we have succeeded to reach a specific place in the entrepreneurship ecosystem with both national and international connections. We have a long way to go, a lot of women to support. Women should not only be participants but also be leaders in every area of life. Our association aims to help women while they join economy and become entrepreneurs in rural areas. There is a huge number of women who need support from us which gives us strength and power to continue our work. We are planning to use the opportunities provided by EMU in helping women in rural areas”.

Eastern Mediterranean University (EMU) and Turkish Cypriot Women Entrepreneurs Association (GIKAD) signed a collaboration protocol. The signing session took place on Tuesday, 5 April 2022 at 10:00 in EMU Rector

Prof. Dr. Aykut Hocanın’s chamber. Rector Prof. Dr. Hocanın and GIKAD Director İçim Çağınır signed the protocol. EMU Entrepreneurship and Innovation Center (GIMER) Chair Prof. Dr. Mustafa Tümer and

EMU FACULTY OF ARCHITECTURE HOSTS MASTER ARCHITECT ASLI ÖZBAY IN COLLABORATION WITH THE FAMAGUSTA INITIATIVE

Eastern Mediterranean University (EMU) Faculty of Architecture, in collaboration with the Famagusta Initiative, organised a panel titled “Lessons to be Learned from the Restoration Work in Cappadocia” at the Famagusta Walled City Association (MASDER) at 18:00 on Wednesday, 30 March, 2022. Participated by Master Architect Aslı Özbay, who is famous for her conservation work in Cappadocia, the panel took place under the moderation of Architecture Department academic staff member Assoc. Prof. Dr. Türkan Ulusu Uraz.

“Correct Information Should Be Placed in Popular Culture”

In her speech, Aslı Özbay emphasized that even today, Cappadocia is described incompletely, not in full and said that even the correct information about the formation of the volcanic tuff stone, which is the means for the formation of the unique geography of the region, started to be mentioned only 5-6 years ago. Pointing out the weakness of the academic research on the region, Özbay said, “We can not like what we do not know, we can not protect what we do not like,” and reminded the rapid increase in historical, geological, sociological and architectural studies for the correct recognition of the region, and the importance of developing public projects to place the correct information in popular culture, starting with the Turkish society.

Insensitive and Uncontrolled Tourism

Emphasizing that she has been working mainly on Cappadocia civil architecture since 2002, Özbay said that there are many lessons to be learned from this multi-layered cultural heritage. Stating that the settled life culture in the Cappadocia caves, dating back 3,000

years to the Hittites, was instrumental in the formation of a unique life system underground, Özbay stated that these places were generally destroyed due to the insensitive and uncontrolled construction of tourism. Özbay said that Argos in Cappadocia Hotel, where he worked as an architect between 2010-2020, is a special example that does not surrender to the insatiable demands of tourism, that balances protection and use well, and that shows the success of bringing the extinct underground living spaces of Uçhisar village to date, and behind this is the founder of the hotel Gökşin Ilıcalı’s sensitive approach. Explaining that during the 25-year long-term development of the hotel, public spaces such as churches, bezirhanes and water tunnels, which were discovered underground, are still being used as public experience areas, Özbay emphasized that while doing restoration in Cappadocia, where large areas of destruction have been created recently due to disaster or political reasons, it is necessary to work without fear of the issue of ‘reconstruction’.

“There Is A Serious Conservation Problem In Nevşehir”

Özbay summarized the project they developed in partnership with architect Han Tümerterkin for the recovery of the historical Kale Mahallesi in Nevşehir, which she described as a heartbreaking cultural massacre, as follows: “Between 2010 and 2014, Nevşehir Municipality completely demolished around 2,400 buildings that make up 11 historical neighborhoods on the Kale slope. The first intention was to build TOKİ villas in this area. When it was no longer possible to hide the system of caves that emerged from under the destroyed houses, the area was declared an archaeological site. Brand new findings that form the details of the Ottoman’s

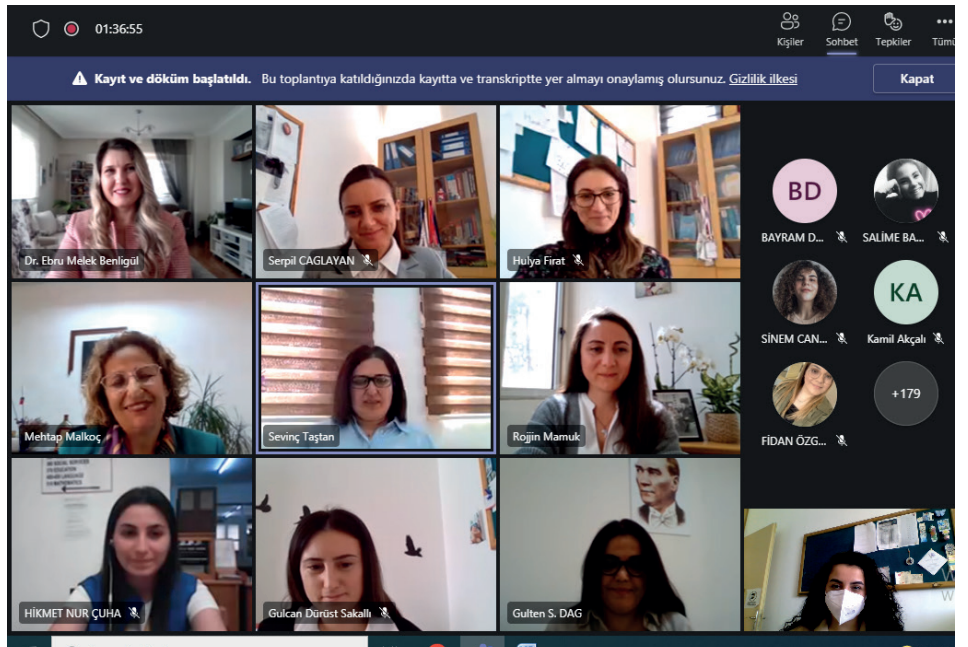

enormous investment at the beginning of the 17th century were unveiled from the underground. However, since the cave system of the area started to melt rapidly after the protective masonry houses at the top, there is a serious conservation problem in Nevşehir that requires urgent measures. Özbay underlined that preserving historical textures, which have been destroyed by ignorant public administrators and insensitive conservation mechanisms, eventually requires the support of civil initiatives.

HEALTH SCIENCES FACULTY ORGANIZES ONLINE EVENT WITHIN THE SCOPE OF THE EMU 10TH INTERNATIONAL CAREER DAYS

Organized annually by the Eastern Mediterranean University, Alumni Communication and Career Research Directorate (EMU-MIKA), the 10th International Career Days continued with an event by the EMU Health Sciences Faculty, Nursing Department. The online event hosted Turkish Nurses Association İzmir Branch Director Dr. Ebru Melek Benligül.

Total of 410 participants, including the EMU Health Sciences Faculty Dean Prof. Dr. Mehtap Malkoç, vice Dean and Nursing Department academic staff member Assoc. Prof. Dr. Gülten Sucu Dağ, Nursing Department Head Prof. Dr. Sevinç Taştan, all academic staff of the Nursing Department, students and visitors attended the event. During the event, Dr. Benligül delivered a speech titled “Professionalization Process of Nursing Profession and Career Opportunities”. Touching on the developments in the nursing profession from past to present, as well as career opportunities for today’s nurses, Dr. Benligül gave examples of her career development process and goals. The online event which received great interest from the audience ended with a question-answer session where Dr. Benligül answered the questions asked by the students.

EMU HOSTS RAP FESTIVAL

Eastern Mediterranean University (EMU) held the first of its activities to ensure that the spring months are filled with vibrant organisations. Organized by the Social and Cultural Activities Directorate, the “EMU Sound Set Festival” was held on Friday, 1 April, 2022, at 18:00 at EMU Yasin Düşüner Stadium with a large turnout.

At the event, held for the first time at EMU bringing together RAP music fans, the leading names of RAP music took the stage and gave the participants a pleasant time.

One of the popular names of RAP music, Tepki, who took the stage first, sang many of his songs as well as his most popular song “Rüyalar”. Then, the popular name of foreign RAP, A Star, sang the most popular song “Kupe Dance” and many other songs.

Ayben, known as the sister of Ceza, who is one of the leading names of RAP, took the stage and brought together beautiful pieces such as “Başkan”, “Rap Benim” and “Kimsin” with RAP lovers. Then, Anıl Piyancı,

cont. p. 5

EMU HOSTS RAP FESTIVAL

who started his music career at a very young age and sang the song “Birakman Doğru mu?” in 2019 with Zeynep Bastık took the stage and sang popular songs including “Palavra” and “Döndüm Durdum”. EMU Vice Rector for Student Affairs Prof. Dr. Hüseyin Aktuğlu and Vice Rector for Social and Cultural Affairs Prof. Dr. Deniz İşçioğlu also attended the event at the end of which Prof. Dr. Aktuğlu and Prof. Dr. İşçioğlu presented plaques to the artists, while Evşim Erel, Head of the Social and Cultural Activities Directorate, Activities Unit, presented flowers to them.

PUBLIC RELATIONS AND ADVERTISING DEPARTMENT ORGANIZES FIRST METAVERSE TRAINING IN EMU

Eastern Mediterranean University (EMU) Communication Faculty, Public Relations and Advertising Department and Genesis Agency organized "Metaverse 101" seminar at Communication Faculty Purple Hall. During the seminar organized with the contributions of Public Relations and Advertising Department Head Prof. Dr. Anıl Kemal Kaya, EMU Public Relations and Advertising Department academic staff member Assist. Prof. Dr. Raziye Nevzat made a presentation on Metaverse and Non-Fungible Token (NFT). Providing

information on the future use of metaverse in the fields of marketing and advertising, Assist. Prof. Dr. Nevzat stated that the issues encountered in e-commerce will minimize and personally created avatars will provide great convenience in the field of communication. Emphasizing that metaverse universe is to contribute the attention economy in great sense, Assist. Prof. Dr. Nevzat indicated that there are claims regarding the metaverse helping to reduce the waste thrown into the environment to a large extent, and that stock management, logistics

and carbon footprint decreasing. Assist. Prof. Dr. Nevzat also added that celebrities animated with augmented reality can provide training. Later on the seminar, Assist. Prof. Dr. Nevzat expressed the emergence of metaverse economy which is to be used for purchasing, game and society platform. Assist. Prof. Dr. Nevzat emphasized that Roblox, the game platform, Decentraland, the purchasing management, The Sandbox, Spatial, Stegaverse platforms where the meetings are held, and the Vemaker platform, the community management platform, take place in the metaverse.

Stating that the metaverse technology mainly aims to reach the Z and Alpha generations, Assist. Prof. Dr. Nevzat added that among the innovations that Metaverse will offer, many brands will put digital products on sale with metaverse shopping. Informing that new professions will emerge in the metaverse world after 2025, Assist. Prof. Dr. Nevzat also answered the questions of the students at the end of the seminar, sharing the good news that the initiatives for adding the Metaverse into the curriculum of the EMU Public Relations and Advertising Department started. Participants on the seminar were presented with "Metaverse 101" participation certificates.

EMU DR. FAZIL KÜÇÜK MEDICINE FACULTY DEAN PROF. DR. NAHİDE GÖKÇORA ISSUES A STATEMENT ON 1-7 APRIL CANCER WEEK

Eastern Mediterranean University (EMU) Dr. Fazıl Küçük Medicine Faculty Dean Prof. Dr. Nahide Gökçora issued a statement on the occasion of 1-7 April Cancer Week. Gökçora's statement reads as follows:

"Cancer is the second cause of death in the world, following the cardiovascular diseases. Therefore, it is an important public health problem for the countries. However, there are many things that can be done about it. In many types of cancer, early diagnosis and treatment can increase the duration and the quality of life. Preventing the preventable cancer types is also possible with the application of right policies. Creating and implementing a well-rounded Cancer Control Program is the top

priority and most economical task for each country. Going on over two years, Covid-19 pandemic has disrupted the services provided in the field of cancer all around the world. Such disruptions include preventing the preventable cancers, early diagnosis services, people reaching to the necessary treatments and palliative treatments. For this reason, the Union for International Cancer Control (UICC) reached out all the countries on the occasion of 2022 World Cancer Day with this year's "Close the Care Gap" slogan. To be brief, in 2022, we must re-launch the services in these four areas as soon as possible and expand them to include all members of the society.

The most important issue in the design and implementation of all cancer-related services is to have reliable statistical data. In this context, cancer registry was established in cooperation with the TRNC Ministry of Health and EMU, with the TRNC Cancer Registry Project, which started in 2013 with the contributions of the Embassy of the Republic of Turkey.

Between the years of 2017 and 2018, total of 1697 cancer cases were diagnosed. Of these, 891 are men and 806 are women. Excluding malignant non-melanoma skin cancers, the total number of cases was found to be 1415. 710 of them are men and 705 of them are women.

The most common cancer types diagnosed in man during 2017-2018 were identified as

Prostate, Lung, Colorectal cancers, Bladder and Lymphoma, respectively. In women, the top five most common cancer types were Breast, Thyroid, Colorectal tumors, Uterine cancers and Lung Cancer, respectively.

Upon the data collection call made by the International Association of Cancer Registries (IACR) to the world, the 2013-2017 TRNC cancer records were compiled and delivered through the IACR regional representative. The data is still being analyzed by the IACR and the results of the analysis are expected to be presented in "Cancer in Five Continents" documents which will be published in 2023. Within this context, in 2022, we applied to the IACR for membership as the Northern Cyprus Cancer Registry Center. We are still waiting the IACR's feedback on the matter.

Among our goals are the creation of the staff of the Northern Cyprus Cancer Registry Center and the urgent employment of cancer registry staff, the acceptance of our membership application to the International Association of Cancer Registrars (IACR), the data we shared with the International Agency for Research on Cancer (IARC), to ensure that Northern Cyprus is included in international cancer statistics, to hold meetings of the National Cancer Advisory Board, and to update and accelerate the screening and early diagnosis studies that should be carried out together with cancer registry."

EMU CENTER FOR CYPRUS STUDIES TO HOST ARTIST AYHAN MENTEŞ'S EXHIBITION TITLED "MEANINGFUL COINCIDENCES"

On the occasion of 15 April World Art Day celebrations, Eastern Mediterranean University Center for Cyprus Studies (EMU-CCS), in collaboration with the Mediterranean European Art Association (EMAA), is preparing to host an exhibition titled "Meaningful Coincidences" featuring the works of painter Ayhan Menteş, who passed away in 2016. Thus, EMU-CCS and EMAA will add a new one to their joint activities that started with the retrospective exhibition of painter Gönen Atakol in 2013. The exhibition, which focuses on the painter Ayhan Menteş (1936 – 2016), will meet with art lovers on Wednesday, 13 April, 2022, at 18:30, at Rauf Raif Denktaş Culture and Congress Center, Small Exhibition Hall. The "Meaningful Coincidences" exhibition can be visited between 10:00 and 17:00 on weekdays until 30 April, 2022.

Archiving and Research Process Over Four Years

The two institutions, which set out with the aim of recording the artists who have left a trace on the Turkish Cypriot community, giving their deserved place in history, and carrying out the necessary academic studies in this context, will have produced their first product with the "Meaningful Coincidences" exhibition and catalog, after more than four years of archiving and research activities. The second product in the publication process is called "My Life". The autobiography of Ayhan Menteş, which emerged during the archiving works, will be published in Turkish and English. The multi-authored "Ayhan Menteş Anthology", which is still being worked on, will meet with art lovers in the coming years. Exhibition curator of the extensive work and editor of the books is Dr. Esra Plümer Bardak whilst the coordination and archiving activities are being carried out by EMU Art Coordinator Zehra Şonya.

Indicates Jung's Concept of Synchronicity

The title "Meaningful Coincidences" refers to Swiss Psychiatrist Carl G. Jung's concept of synchronicity. In this concept, meaningful coincidences and events that do not have causal relationships but are meaningfully connected are analysed. Although the importance Jung attributes to the simultaneity of causally unrelated events is closely related to luck, astrology, mythology, physics and the power of creative thought, all of these are an integral part of Ayhan Menteş's visual exploration of the fish symbol, ocean symbols and other living forms. as part of it. "Meaningful Coincidences", which

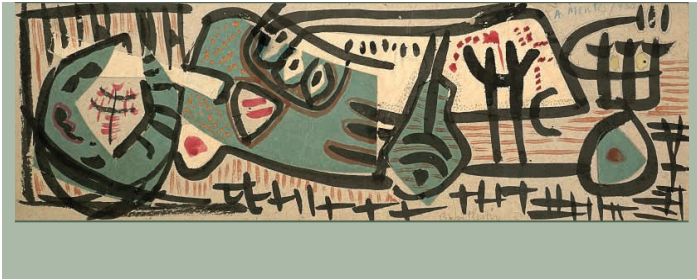

represents only a small part of Menteş's extensive corpus; brings together a selection of paintings, watercolors, collages, linoleum prints and ceramics. Having collected mythologies from folk tales, ancient legends and symbols for 60 years, Menteş frequently used them in his visual works. The fish symbol and other living forms, in a sea of other recurring themes and symbols, will be traced in these works of Menteş, in which he reveals the special bond with his lifelong interest in the power of subconscious and creative thinking. The exhibition will provide an opportunity to take a look at the artist's process of discovering the known and unknown forms and subjects in the works created by Menteş between the 1980s and 1990s, focusing on the fish symbol and his interest in living life, and his many experiments on the subject.

WORKSHOPS FOR HIGH SCHOOL STUDENTS ARE TO COMMENCE AT EMU

The "Workshops" organized by Eastern Mediterranean University (EMU) for high school students in the Turkish Republic of Northern Cyprus (TRNC) will be held on 12 – 22 April 2022.

The event which will host over 1500 senior year high school students from different schools around TRNC will commence on Tuesday, 12 April 2022 at 09:30 within various academic units in EMU campus. Students will be divided into groups according to the profession and specialization they plan to choose, and they will participate in Workshops in the company of academic experts in the relevant faculty. The workshops aim to bring out the talents of the students as well as to contribute their improvements.

Within the scope of the Workshop events, total of 67 different topics will be discussed in the fields of Computer, Pharmacy, Education, Law, Communication, Business, Economy, Architecture, Engineering, Health, Medicine, Tourism, Arts and Sciences.

EMU ARCHERY CLUB RETURNS WITH MEDALS FROM 3D FIELD COMPETITION

EMU Archery Club, operating under the Eastern Mediterranean University (EMU) Social and Cultural Activities Directorate, returned with medals from the 3D Field Competition held in Alsancak Nature Park. The series was completed by shooting three arrows at 10 different targets in the competition. One of the EMU Archery Club athletes, EMU Engineering Faculty, Industrial Engineering Department 1st Year Student Erkan Tuna, who participated in the competition under the leadership of Turkish Republic of Northern Cyprus (TRNC) Archery Federation Trainer İraz Yücesoylu, won a gold medal in the Young Men's Roller category. EMU Engineering Faculty, Computer Engineering Department 4th Year Student Ahmet Sarp Özışık won the silver medal in the Olympic Senior Men's category, while EMU Law Faculty 2nd Year Student Varol İlker Ersalan won the bronze medal. In the Olympic Senior Women's category, EMU Faculty of Pharmacy 2nd Year Student Bera Nur Yavuzuş won the bronze medal.

With the start of the 2021-2022 Academic Year Spring Semester, student clubs that carry out various activities under the EMU Social and Cultural Activities

Directorate started their activities. Having established their new executive boards, the clubs offer colorful activities for EMU students free of charge under the supervision of their expert trainers.

Possibility in Participation in Competition

Contributing to the development of archery, which has recently become one of the popular sports, EMU Archery Club continues its activities under the management of İraz Yücesoylu, trainer of the Turkish Republic of Northern Cyprus (TRNC) Archery Federation. Students participating in the EMU Archery Club, which has its center at EMU Yasin Düşüner Stadium, have the opportunity to receive in-person training from İraz Yücesoylu once a week. At the same time, due to the fact that trainer Yücesoylu is also the trainer of the federation, students who join the EMU Archery Club have the opportunity to participate in competitions on behalf of EMU, both individually and as a team.

Students wishing to join the EMU Archery Club can visit the club's Instagram address @emu_archery, click on the Whatsapp link on the address, and become a member of the group.
