

## EMU ORGANIZES SUMMER WORKSHOP PROGRAM FOR HIGH SCHOOL STUDENTS

Eastern Mediterranean University (EMU) is organizing a summer workshop program towards high school students. The program will be held between the 15th and 26th of August, 2022. The courses of the program, which will provide students with the opportunity to develop themselves academically as a part of university life and gain knowledge in various fields before their university choices, will be given by EMU faculty members and research assistants. Students will also get the opportunity to experience campus life as well as benefitting from other opportunities that EMU offers. All the courses to be taught during the program are developed with respect to the existing courses and topics offered to EMU undergraduate students. Students are to attend the classes and activities of the program which they have chosen on weekdays for a period of two weeks. Students who complete the program will be presented with certificates. The classes and activities will be held between 10:30 and 15:30.

### Last Day for Applications is 12 August

All students from Turkish Republic of Northern Cyprus (TRNC) high schools who have successfully completed the 9th, 10th or 11th grade can apply for the summer workshop program. Students wishing to apply to the program can submit their applications through <https://tanitim.emu.edu.tr/tr/lise-yaz-atolyesi/basvuru-formu> webpage until Friday, 12 August, 2022. More information can be obtained from 0533 820 10 40 and 0533 857 18 51.

Cyprus Turkish Cinema and Television Association chose Eastern Mediterranean University (EMU) Faculty of Communication, Digital Media and Film Master's Program student Toğrul Abbasov as a Preliminary Jury Member for the 4th "Cinevision International Film Festival" where the Nafi Hüseyin Rıza awards, named after "Sinemacı Nafi" who opened the first cinema theatre in Famagusta.

With total of 163 film applications from 31 different countries, a preliminary jury was set due to the increase in the number of applications. Applications were also made from the Turkish Republic of Northern Cyprus (TRNC).

Within the scope of the festival, 13 awards will be presented including short film, documentary and television awards. Jury consists of members from different countries (TRNC, Turkey, Azerbaijan, Italy, India, etc.) and occupations (author, scriptwriter, director, painter, etc.) who are experts in their fields.

## EMU FACULTY OF ARCHITECTURE, THE ONLY NAAB ACCREDITED FACULTY IN THE TRNC, AWAITS NEW STUDENTS

Eastern Mediterranean University (EMU) Faculty of Architecture awaits its new students in the 2022-2023 Academic Year. EMU Architecture Faculty, which is the only faculty holding NAAB- (The National Architectural Accrediting Board) International Certification Equivalency in the Turkish Republic of Northern Cyprus (TRNC) provides education through the Department of Architecture and Department of Interior Architecture, both of which have AQAS (Agency for Quality Assurance through Accreditation of Study Programs). The Faculty of Architecture, which started to provide education as the Department of Architecture under the Faculty of Engineering in 1991, was transformed into a faculty with the Departments of Architecture and Interior Architecture in 1997. EMU Faculty of Architecture, in addition to its Architecture (English) and Interior Architecture (Turkish-English) undergraduate programs, also provides postgraduate study opportunities in Interior Architecture (Thesis&Non-

Thesis), Urban Design (Thesis&Non-Thesis), Conservation and Restoration (Thesis&Non-Thesis), Architecture (Thesis&Non-Thesis) and Cultural Heritage Studies with Thesis, and doctorate in Architecture.

### Awaits Its Students with Rich Programs

Standing out with its quality education in many different branches of architecture, EMU Faculty of Architecture also has the unique quality of being the leading architecture faculty of the TRNC and Turkey with its international accreditations and memberships. The Architecture Department has MIAK (the Turkish National Architectural Accreditation Board) and NAAB International Certification Equivalency. Interior Architecture Department has AQAS (Agency for Quality Assurance through Accreditation of Study Programs) accreditation. In addition, EMU Faculty of Architecture is a member of EAAE (the European Association for Architectural Education), ENHR (the European Network for Housing Research), ACSA (the Association of Collegiate Schools of Architecture) and EMU Interior Architecture Department is a member of IFI (the International Federation of Interior Architects/Designers). EMU Faculty of Architecture contributes to the education of students while taking into account international qualifications, universal principles and goals in order to raise creative and inquisitive individuals who are aware of the technical, ethical, aesthetic, social and cultural responsibilities of being an architect and interior architect.

### “We Boast Many Successful Achievements”

Giving a statement on the subject, EMU Faculty of Architecture Dean Prof. Dr. Uğur Ulaş Dağlı expressed that the Faculty of Architecture has achieved many successes since its establishment. Prof. Dr. Dağlı said, “But perhaps the most important achievement of our faculty is a special, friendly, warm and professional educational environment that has been achieved by its academic, administrative staff and students. Our faculty constantly develops its programs with an

understanding of participatory education in which students have a say and the needs of the day are captured and shaped together. Our faculty also monitors the quality assurance of its programs through independent institutions. Architecture Department Undergraduate Program has MIAK and NAAB International Certification and Interior Architecture Department Turkish and English Undergraduate Program also holds AQAS accreditation. Our departments are also working hard to constantly renew their accreditations.”

### Graduates Can Find Jobs Worldwide with Ease

Prof. Dr. Dağlı continued her statement as follows: “The fact that our academic staff previously worked in many different institutions and undertook different positions / duties acts as an important factor in our becoming a multidimensional / diverse Faculty. In addition, our faculty has taken its place as a pioneer in this field in our nearby geography, as our faculty members have published papers in respected national and international journals. While the individual differences of our students are supported, opportunities are also created for them to have the current and universal competence of the profession and to open up to the world; It is ensured that they come together with successful local and international designers on different platforms. In short, our graduates can easily pursue job opportunities in the world’s leading institutions and organizations with their versatile accumulation.

Here, the Faculty tries hard to ensure an environment where everyone can express themselves on every platform with a management approach without walls. Our faculty always develops ideas to catch up with the present and the future with the participation of a wide stakeholder group. I am proud to be a part of the EMU Faculty of Architecture, which has such a dynamic and vibrant environment, and to have worked there for a long time.”

## EMU FACULTY OF PHARMACY AWAITS ITS NEW STUDENTS

Eastern Mediterranean University (EMU) Faculty of Pharmacy is awaiting its new students during the 2022 – 2023 Academic Year Fall Semester. Established in the 2011 – 2012 Academic Year, EMU Faculty of Pharmacy offers training in its 10-semester B.Pharm Program and 12-semester Pharm.D Program. EMU Pharmacy Faculty raises qualified pharmacists and scientists, who have conceived principles and ethical concept of pharmacy profession, have owned top-level international fit out that can serve as first-step health advisor in community health, and have earned property of pursuing the latest scientific and technological progresses in this profession. The faculty contributes to the scientific research in our scope at universal and regional levels and uses the obtained knowledge for benefit of the community through pharmacy professional service. With its qualified academic staff and high technology laboratories, EMU Faculty of Pharmacy is among the best and most respected Pharmacy faculties in our region and is able to pass on knowledge necessary for obtaining employment in international drug industry and the other branches of this profession.

### Opportunity of Studying and Completing an Internship Abroad

Faculty of Pharmacy is proud of being the first academic member accepted by International Pharmacy Federation (FIP) from Cyprus and the second among the Faculties of Pharmacy throughout Turkey in 2012. Our faculty is also represented through EMUPSS (Eastern Mediterranean University Pharmacy Students Society) as a member association of “The International Pharmaceutical Students’ Federation” (IPSF) offering Student Exchange Program which allows EMU students the opportunity to conduct clinical and community pharmacy practice in different countries. Moreover, within the scope of the

said collaboration, EMU Faculty of Pharmacy welcomes pharmacy students from around the world.

### High-Tech Laboratories

The Faculty has student laboratories equipped with the latest technological and educational infrastructure necessary for pharmaceutical sciences including HPLC, GC-MS, FT-IR, UV spectrophotometer, laminar flow, microwave reactor, tablet machine, dissolution device, granulator, homogenizer, viscosimeter, climate cabinet, incubators, particle sizer, powder mixer, grinder, water baths, microscopes, etc. All of the laboratories are furnished with smart boards. The “Medicinal and Aromatic Plant Garden” is arranged in front of the Faculty building for the studies in Pharmaceutical Botany and Pharmacognosy. Despite of being a young faculty, the Faculty of Pharmacy has published approximately 50 scientific papers in the reputed journals recognized by Science Citation Index (SCI).

### Offers Quality Education

Releasing a statement on the topic, EMU Faculty of Pharmacy Dean Prof. Dr. Müberra Koşar said: “The pharmacy profession is among the primary health care professions. Pharmacy is a discipline that serves public health and is also included in the preventive health service group. Due to the fact that it contains many disciplines, the title of Pharmacist is taken as a result of a multidisciplinary education. For this reason, it has a wide range of knowledge and work areas.

The years spent at the university have an important place in people’s life, and for this reason, they should be spent well. Therefore, it is ideal that the university and faculty you choose should be both scientific and student-friendly. EMU is student-friendly with its large and functional campus facilities and its

location in the city center. Even though the Faculty of Pharmacy is a fairly new faculty, it offers quality education opportunities to our students with its young and dynamic faculty members and its infrastructure. In addition, the students will have the opportunity to communicate with international pharmacy students within the scope of the EMUPSS Student Community and to participate in both social and scientific activities. You, our esteemed guests, who will be join us, will also find many social opportunities in our city.

EMU Faculty of Pharmacy awaits young Pharmacist candidates, with its young, dynamic, hardworking and successful faculty members, modern infrastructure facilities and social support. If you want to spend this important part of your life in a country with an idyllic nature, in a student-friendly campus and in a faculty that embraces you in every way, EMU Faculty of Pharmacy and we are waiting for you.”

## EMU FACULTY OF ENGINEERING AWAITS NEW STUDENTS

Eastern Mediterranean University (EMU) Engineering Faculty, the educational quality of which is recognized by ABET, one of the world's leading accreditation institutions, awaits new students in the 2022-2023 Academic Year Fall Semester. EMU Engineering Faculty, which started its academic life in 1979, brings up world-class engineers. The faculty includes departments of Computer Engineering, Electrical and Electronic Engineering, Industrial Engineering, Civil Engineering and Mechanical Engineering.

### Active Role Worldwide

Whilst the Industrial, Electrical-Electronic, Computer, Mechanical, Software, Mechatronics and Civil Engineering programs stand out as programs with ABET accreditation, EMU Engineering Faculty students and faculty are members of prestigious organisations and associations including ACM, ASEE, EDC, EEDC, ASME, EAEEIE, EESTEC, ESTIEM, IIE, ACI, ASCE, ICE, ISCP, IAHR, ISSMGE and FEANI. Taking an active role in world-class inter-university student organizations and unions, departments at the Faculty of Engineering also offer value-added services such as double major programs as well as student and faculty member exchange opportunities with many US, European Union and Canadian universities.

### “We Prepare for the Future”

Making a statement on the subject, EMU Engineering Faculty Dean Prof. Dr. Hüseyin Özkaramanlı said, “Within the framework of the quality assurance system implemented in our faculty, we train our students to become individuals with learning skills as well as their professional knowledge and we prepare them for the future by bringing them up as skilled individuals with a good

command of the English language, who are aware of international cultural differences, and acquired the skills to use information and communication technologies. We closely follow the developments in technology and science and, support university-industry cooperation. The Faculty of Engineering also offers value-added services such as double major programs, exchange of students and faculty members with universities in different countries. The Faculty also takes an active role in international student organizations and associations around the world.

Prof. Dr. Özkaramanlı continued his statement as follows: “Our graduates either continue their postgraduate studies in line with the objectives of our programs or they start their careers as entrepreneurial engineers. As a requirement of being a higher education institution, our university attaches great importance to improving the quality of education. We invite you to join us and be a part of our faculty that provides professional engineering skills and offers important opportunities in a cultural mosaic of international students from 98 different countries, with quality education and advanced research, on a wide campus.”

## EMU FACULTY OF LAW IS READY FOR THE NEW ACADEMIC YEAR

With its strong team of academic staff, Eastern Mediterranean University (EMU) Faculty of Law, one of the leading law faculties in the Turkish Republic of Northern Cyprus (TRNC) and Turkey, is ready for the 2022-2023 Academic Year. The Faculty of Law started its academic life in the 1996-1997 Academic Year in collaboration with Ankara University that has been continuing to this day. The undergraduate program of EMU Faculty of Law is a four year program and its language is Turkish. EMU Faculty of Law does not require taking English preparatory classes. The education it provides is based on Turkish Law and the program is very similar to those provided at Turkish universities.

### Collaboration with the First University of the World

For students who want to carry out their profession in the TRNC necessary attention is paid to TRNC Law. The Faculty also offers a series of elective courses on different topics, all catering to students' interest in various legal areas. In addition, English and Legal English also carry importance. Therefore, first and second year students receive a more intense foreign language education than students at other Law Faculties. The EMU Faculty of Law offers elective courses to prepare students who want to carry out their profession in English-speaking countries for the compulsory international TOLES exam.

Within the scope of the collaboration agreement settled between EMU and Alma Mater Studiorum Bologna University (UniBo) in 2015, students of EMU Faculty of Law take courses at Bologna University which is the world's first and oldest university. EMU's program is in high demand because of this opportunity that is solely provided to EMU Faculty of Law students.

### Strong Academic Staff

EMU Faculty of Law has been running its Postgraduate Program since 2000-2001 Academic Year. This program was established under EMU Institute of Graduate Studies and Research. The program provides students with the opportunity to become experts in the fields of Private Law, Public Law and International Law. The EMU Faculty of Law is also a full member of the European Law Faculties Association (ELFA).

In addition to EMU Faculty of Law's full-time academic staff, the team includes academic staff members from Turkey's leading Faculties of Law and the world's first and oldest university Alma Mater Studiorum Bologna University.

### An Important First

EMU Faculty of Law also carried out a first in Cyprus and is running a joint master's program in the field of Comparative Legal

Systems with the University of Bologna. Upon successfully completing the program, students will receive a Joint-Double Degree certified by both universities. The joint master's program aims to promote internationalization and innovation in the field of law, to increase the quality and appeal of higher education, to join the expertise of the two big universities in the field of law, to support work concerned with comparative law, to present comparative legal problems with an international legal perspective, to unite different legal disciplines in a research environment and to allow students who cannot receive education at a European standard to do so via EMU.

### Vast Job Opportunities

Students successfully graduating from EMU Faculty of Law are presented with numerous job opportunities. After meeting certain requirements such as exam success and internship in the field, graduates can easily find employment in both the public and private sectors. There are numerous EMU Faculty of Law graduates in Turkey and the TRNC working as lawyers, judges and academicians. In addition, graduates may undertake administrative duties as governors, district governors, inspectors and specialists as law offers graduates a wide spectrum of employment opportunities and a prestigious future.

## EMU FACULTY OF DENTISTRY AWAITS NEW STUDENTS IN ITS MODERN BUILDING EQUIPPED WITH THE LATEST TECHNOLOGY

Eastern Mediterranean University (EMU) Faculty of Dentistry is awaiting its new students in the 2022-2023 Academic Year Fall Semester in its modern building equipped with advanced technological devices and equipment at world standards. EMU Faculty of Dentistry is a member of the Association for Dental Education in Europe (ADEE), which sets the standards of dentistry education throughout the European Continent and supports member faculties in terms of education quality. ADEE has 149 universities from 42 countries in Europe, and only 4 universities from Turkey, namely Hacettepe University, Yeditepe University, Istanbul Aydın University and Altınbaş University. EMU Faculty of Dentistry is the first and only university in the Turkish Republic of Northern Cyprus (TRNC) to have an ADEE membership.

### Joint Program with the University of Health Sciences

Spaciously designed laboratories allow 50 students to work together at the same time in the modern building of EMU Faculty

of Dentistry, which was built using the university's own resources and without any contribution. EMU Faculty of Dentistry aims to train its new students as graduates with the skills to maximize the quality of life of individuals and society. The education period of the Dentistry Undergraduate Program, jointly implemented by EMU and the Republic of Turkey Health Sciences University, is 5 years. Students of the faculty are to receive English-medium training at EMU during the first two years of their study and then, complete the last three years of their study at Republic of Turkey Health Sciences University where they will receive Turkish-medium training before they graduate as successful dentists.

### Equipped with the Latest Technology

EMU Faculty of Dentistry, which will bring up graduates with the most advanced and international standards of dentistry knowledge and skills, hosts Prosthetic Dentistry (Prosthetics) Preclinical and Endodontic (Filling and Root Canal Treatment) Preclinical laboratories, where students will receive practical training. Additionally, the faculty has a Polyclinic that will serve the public. At the same time, the Special Room, where surgery, x-rays and all other interventions can be performed in a single seat ensuring the comfort of our disabled and elderly citizens, is located in the modern and technological building of the EMU Faculty of Dentistry.
